
POLICY PROFILE STOCK THROUGHPUT INSURANCE

Stock Throughput insurance covers a company's inventory and the flow of goods from the source of production to its final destination.

Who is this policy for?

Companies that import, distribute or export merchandise.

What cargo can be insured?

ACIS can arrange insurance for all moveable goods (inventory) that are the subject of the insured's trade, including raw materials, semi-finished and finished products.

What risks can be insured against?

Subject to the policy terms and conditions, basically cover is given against "All Risks" from the source of production to its final destination during ocean transport, inland transit and during manufacture and incidental storage.

Where can ACIS insure?

ACIS must at all times adhere to sanctions regulations and these are subject to change. We have prepared a [COUNTRIES CLASSIFICATION](#) quick guide which lists most of the countries where we can arrange cargo insurance and includes some of the restrictions that are in force. However, as the position is fluid clients should check first with an ACIS underwriter to ensure cover can be placed where required. ACIS Cargo Online Facility users can check the site which is updated daily with any changes.

What is the scope of cover?

The clauses applying to any insurance we arrange will be clearly stated in the quotation/ certificate issued. ACIS Cargo insurance is typically comprised of the following documents: **Certificate of Insurance, ACIS General Cargo Conditions, Cargo Interests and Countries**. Accompanying documents and cross referenced Institute Cargo Clauses may also be found in the Library section of the ACIS Cargo website www.aciscargo.com

Next steps?

To apply for Stock Throughput Insurance, please complete our [APPLICATION FORM](#). For further information, you may email an ACIS underwriter at underwritingteam@acisunderwritingagencies.com.
